ITEMS TO BE SEIZED

I. SEARCH PROCEDURE

1. The search warrant will be presented to personnel of Microsoft Corp. (the "PROVIDER"), who will be directed to isolate the information described in Section II below.

2. To minimize any disruption of service to third parties, the PROVIDER's employees and/or law enforcement personnel trained in the operation of computers will create an exact duplicate of the information described in Section II below.

3. The PROVIDER's employees will provide in electronic form the exact duplicate of the information described in Section II below to the agent who serves the search warrant.

4. With respect to contents of wire and electronic communications produced by the PROVIDER (hereafter, "content records," see Section II.10.a below), law enforcement agents and/or individuals assisting law enforcement and acting at their direction (the "search team") will examine such content records pursuant to search procedures specifically designed to identify items to be seized under this warrant. The search shall extract and seize only the specific items to be seized under this warrant (see Section III below). In conducting this search, the search team shall take notes regarding how it conducts the search.

5. If the search team encounters immediately apparent contraband or other evidence of a crime outside the scope of the items to be seized, the team shall immediately discontinue its search pending further order of the Court and shall make and retain notes detailing how the contraband or other evidence of a crime was encountered, including how it was immediately apparent contraband or evidence of a crime.

6. The search team will complete its search of the content records as soon as is practicable but not to exceed 60 days from the date of receipt from the PROVIDER of the response to this warrant. If additional time is needed, the government may seek an extension of this time period from the Court within the original 60-day period.

7. Once the search team has completed its review of the content records and created copies of the items seized pursuant to the warrant, the original production from the PROVIDER will be sealed -- and preserved by the search team for authenticity and chain of custody purposes -- until further order of the Court. Thereafter, the search team will not access the data from the sealed original production which fell outside the scope of the items to be seized absent further order of the Court.

8. The special procedures relating to digital data found in this warrant govern only the search of digital data pursuant to the authority conferred by this warrant and do not apply to any search of digital data pursuant to any other court order.

9. Pursuant to 18 U.S.C. § 2703(g) the presence of an agent is not required for service or execution of this warrant.

II. INFORMATION TO BE DISCLOSED BY THE PROVIDER

10. To the extent that the information described in Attachment A is within the possession, custody, or control of the PROVIDER, including any information that has been deleted but is still available to the PROVIDER, or has been preserved pursuant to a request made under 18 U.S.C. § 2703(f), the PROVIDER is required to disclose the following information to the government for each SUBJECT ACCOUNT listed in Attachment A:
